Why choose CommScope for your school project?

As your school continues its digital transformation to 1:1 mobile learning, CommScope helps you address the top three challenges of school IT: network scaling, securing student data privacy, and network reliability for digital instruction.

Our goal is to help you provide a safe and reliable learning environment at an affordable price.

The digital classroom of tomorrow promises an outstanding education. Is your network ready?

The classroom of tomorrow promises an outstanding education. Blended learning, digital curriculum and other modern learning models can better engage students and help educators be more effective.

With this digital transformation, lesson plans now depend on consistent, reliable connectivity to the school's network. Instead of leaving tools locked in the classroom, students walk in the door with their laptops, tablets or other devices every morning, and take them home with them each night.

As such, there are three major concerns currently facing school IT administrators.

NETWORK AND BROADBAND SCALING

The top priority for information technology is broadband and network capacity.

More devices are coming onto the network, stretching the limits of aging infrastructure. In 2018 it was recommended a minimum of 3,000 Mbps bandwidth per 1,000 students. Plan for growth, not rip-and-replace.

TRANSITION TO DIGITAL LEARNING

The transition from text-based curricula to blended learning.

Avoid network down time. Even a three-minute interruption can disrupt a 50-minute class.

SECURITY AND STUDENT DATA PRIVACY

Facing the task of protecting student data from misuse or breach.

Governments world-wide are drafting legislation or enacting laws to protect student data.

Education solutions

Expectations for your communications network have never been higher, as both students and teachers engage in new ways. To keep up with this demand, the communication infrastructure has to be up to the task. That's where CommScope solutions can help your communications network do more—and do it better.

CommScope's communications infrastructure solutions are built to make your communications network simpler to deploy and manage, improve its reliability, and give it the adaptability to evolve as student and teacher requirements change.

Our Education Network solutions portfolio covers every connection and cable, from copper and fiber structured cabling to IoT access networks, unified Wi-Fi, Wi-Fi 6E, switching and intelligent automated infrastructure management.

CommScope's Network solution products are easy to deploy, more reliable and more adaptable. CommScope can power the future of your school's infrastructure. We have the largest trained installation partner network throughout India and SAARC. These installation partners can design, install and implement your every network requirement. We are the only vendor who can fully support your entire communications network.

CommScope celebrates a culture of idea generation, exploration and teamwork
The PartnerPRO[®] Network is strong and growing stronger every day because we share your passion for delivering exceptional value. Like you, we are committed to:

Collaboration

between partner, CommScope and customer—because sharing the goal of SOLVING A PROBLEM is the best way to bring CommScope solutions to market.

Competitive advantage

as the foundation of a truly first-in-class, globally consistent network of the best solutions and expertise available.

Success for all

as we work together for better results for the customer, and better partnership with the experts we count on to deploy our solutions.

FUTURE PROOF

Our ICX[®] access switch uplinks can be upgraded without replacing the switch. We also support stacking up to 12 switches, while Campus Fabric supports up to 36 switches with a single point of management. Our flexible switch deployment options include standalone, stacking and Campus Fabric (with the same switches). With RUCKUS[®] Cloud, you can easily add in RUCKUS Wi-Fi APs and switches, or internet of things (IoT) infrastructure. For the latter two, simply plug into pre-existing RUCKUS Wi-Fi APs—without having to rip and replace!

WIRED AND WIRELESS NETWORK MANAGEMENT

With RUCKUS SmartZone network controllers, it is possible to manage both your wired and wireless network using a single network element. SmartZone network controllers simplify network setup and management, enhance security, minimize troubleshooting and ease upgrades, and ensure provisioning consistency across networks built on RUCKUS access points and switches.

HIGH-PERFORMANCE NETWORK CABLING

The foundation for a high-performance network is the structured cabling infrastructure. This is required to support your networks' bandwidth, capacity and power requirements. CommScope Category 6A copper cabling ensures your structured cabling infrastructure is ready and able to support 10-gig speeds and high-powered PoE. CommScope's fiber solutions also provide the scalable bandwidth you need for your network backbone and for high-performance applications in education, VR and Wi-Fi 6 APs.

The PartnerPRO Network structure provides education customers access to the right partner based on your needs.

Our structure allows our partners to select the right relationship with CommScope based on their business model and expertise.

CommScope's relationship model

Distributors: Organizations focused on the complex logistics of stocking and distributing CommScope's solutions around the globe. Our network helps customers stay on schedule and on budget.

Installers: Local experts who understand the regional specifications that impact your network. Our training and certification programs provide assurance that customers will receive consistent, reliable service.

Integrators: Organizations that integrate our solutions with other technology to address the network owner's complex issues.

Consultants: Help ensure every aspect of the customer's network is designed for excellent quality and performance.

CommScope has built programs around our PartnerPRO Network to support our market segment solutions. Our programs are designed to help our partners stand out and offer more value to our joint customers like education.

NETWORK TERMINOLOGY

Category 6A—Supports network data rates of 10 Gbps up to 100 meters

AP's—Wi-Fi access points

ICX—Network switches

Patch cords—Used to plug active devices into your network equipment

CommScope designs and manufactures the gold standard for structured cabling. From twisted-pair copper cabling to multimode and singlemode fiber optics, our cables meet or exceed all published standards. In 2019, RUCKUS became part of the CommScope family, creating a communication company with unmatched capabilities.

CommScope Financial Services is designed to help customers future-proof their networking connectivity solutions by enabling investments in the latest technology through multiple financing options, including leasing, financing, and rental solutions. The service enables CommScope to provide the technology solutions and total cost of ownership benefits that align with our customers' top financial metrics and business priorities.

Our customers are always seeking ways to ease their upfront capital expenditure (CapEx) yet remain competitive through new technology investments. CommScope created its Financial Services program to address this need by helping customers and partners acquire the latest networking hardware, software and professional services with minimal upfront capital investment. The benefits of using CommScope Financial Services as part of your purchasing cycle include:

- Acquisition of hardware, software and partner professional services without upfront capital investment (OpEx model)
- 100 percent turnkey financing solution for all hard and soft costs
- Existing bank funding lines remain intact
- Working capital available for your core business
- Fixed and predictable monthly payments
- Flexible end-of-term options

CommScope Financial Services customers can be approved for a financing solution of up to 100 percent of all hard and soft costs, not just hardware components. This gives customers and partners the ability to keep existing bank funding lines intact, diversify their funding base and free up working capital for core business goals.

Category 6A U/UTP cable	
MID part number	Description
760107318	GigaSPEED® X10D® 3091B ETL verified LSZH Category 6A U/UTP cable, white jacket, 4 pair count, 1,000 ft (305 m) length, WE TOTE® box

Discrete Patch Panel Complete Kit

Angled Patch Panel Complete Kit

Category 6A U/UTP patch panel	
MID part number	Description
760207274	Discrete Distribution Module Panel, M-series, UTP, 1U, 24 port
760207290	Angled Discrete Distribution Module Panel, M-series, UTP, 1U, 24 port

GigaSPEED X10D MGS600 Series information outlet, yellow

GigaSPEED X10D MGS600 Series information outlet, blue

Category 6A U/UTP information outlets	
MID part number	Description

CPCSSZ2-09F030	yellow Category 6A LSZH patch cord—10 meter

Cat 6A U/UTP slimline patch cord available upon request

C0199K2—MiNo6A Series Category 6A U/UTP reduced diameter LSZH-CM patch cords

Perfect for cross connects, workstations or racks with higher density and/or limited space
Small-diameter unshielded twisted-pair patch cords (4.95 mm) that offer flexibility, durability and reliability
Colors available (black, blue, green, gray, orange, red, spring green, violet, white, yellow)

1RU Cable Manager Metal Finger Duct

1RU 4 Ring Metal Patch Cord Minder

2RU 4 Ring Metal Patch Cord Minder

Horizontal cable management

MID part number	Description
Loop style	
760038240	1RU 4 Ring Metal Patch Cord Minder—black—80 mm loops. includes cage nuts
760038257	2RU 4 Ring Metal Patch Cord Minder—black—80 mm loops. includes cage nuts
Finger duct style, with cover	
760072942	1RU Cable Manager Metal Finger Duct 75 mm
760072959	2RU Cable Manager Metal Finger Duct 75 mm

Reduced footprint 1- and 2-port surface mount modules

Standard footprint 2- to 6-port surface mount modules

Surface mount boxes

MID part number	Description
107984015	Single-port surface mount box—white
107984056	Two-port surface mount box—white
107952459	Four-port surface mount box—white

Face plates	
MID part number	Description
760200428	Single-port square face plate'
760200451	Two-port shuttered square face plate
760200469	Four-port shuttered square face plate

CCA connector only

CCA connector with Category 6 /Category 6A cable assembly

Ceiling Connector Assembly (CCA)	
Field-terminated plug connector for modified permanent link	
MID part number	Description
NOTE: CCA should be wired with T568B method to match patch cord wiring	
760234921	CCA connector only (no patch cable). Use with Cat 5e/6/6A UTP patch cords cut in half
760235590	CCA connector with Cat 6A LSZH UTP RJ45 patch cord. 450 mm long—white

Fiber cables/buried	
MID part number	Description
760249371	OS2, LSZH, 6 core, suitable for indoor application
760249373	OS2, LSZH, 12 core, suitable for indoor application
760249374	OS2, LSZH, 24 core, suitable for indoor application
760249365	OM4, LSZH, 6 core, suitable for indoor application
760249367	OM4, LSZH, 12 core, suitable for indoor application
760249368	OM4, LSZH, 24 core, suitable for indoor application
760249719	OS2, armored, 6 core, suitable for indoor or outdoor application
760249720	OS2, armored, 12 core, suitable for indoor or outdoor application
760249721	OS2, armored, 24 core, suitable for indoor or outdoor application
760249725	OM4, armored, 6 core, suitable for indoor or outdoor application
760249726	OM4, armored, 12 core, suitable for indoor or outdoor application
760249727	OM4, armored, 24 core, suitable for indoor or outdoor application

Other cables available on request

760242455

760242475

760242476

AGILE G2 rackmount fiber trays - 19 in	
Fixed and sliding drawers	
MID part number	Description
These enclosures are best suited for splice solutions	
760242455	1U sliding drawer panel, accepts (4) G2 modules or adapter packs, up to 48 DPX LC or 32 MPO ports
760242475	1U fixed drawer panel, accepts (4) G2 modules or adapter packs, up to 48 DPX LC or 32 MPO ports
760242476	1U sliding enclosed panel, accepts (4) G2 modules or adapter packs, up to 48 DPX LC or 32 MPO ports

G2 splice tray

Splice tray for G2 fiber trays	
MID part number	Description
760241378	Fiber-optic splice tray kit, stackable, 48-fiber capacity

SC singlemode

SC OM4

LC singlemode

LC OM4

G2 Connectorised adapter packs

MID part number	Description
Singlemode	
760135087	G2 singlemode distribution adapter pack 12F SC blue
760230946	G2 singlemode distribution adapter pack 12F LC blue
760216762	G2 singlemode distribution adapter pack 24F LC blue
760135095	G2 singlemode distribution adapter pack 12F SC APC green
760230961	G2 singlemode distribution adapter pack 12F LC APC green
760216770	G2 singlemode distribution adapter pack 24F LC APC green
Multimode	
760134551	G2 multimode distribution adapter pack 12F SC aqua
760230938	G2 multimode distribution adapter pack 12F LC OM4 aqua
760216754	G2 multimode distribution adapter pack 24F LC OM4 aqua
760109462	G2 mod panel blank adapter pack, 4 panels

OS2 pigtail

OM4 pigtail

Fiber-optic pigtails	
MID part number	Description
FBXLCUC11-MXF003	OM4 LC pigtails aqua color—3 feet
FBWLCUC11-JXF003	OS2 LC pigtails yellow color—3 feet

OS2 Patch Cord

OM4 Patch Cord

Fiber-optic patch cords	
MID part number	Description
FFXLCLC42-MXM003	OM4 LC-LC aqua patch cord—3 meter
FFWLCLC42-JXM003	OS2 LC-LC yellow patch cord—3 meter

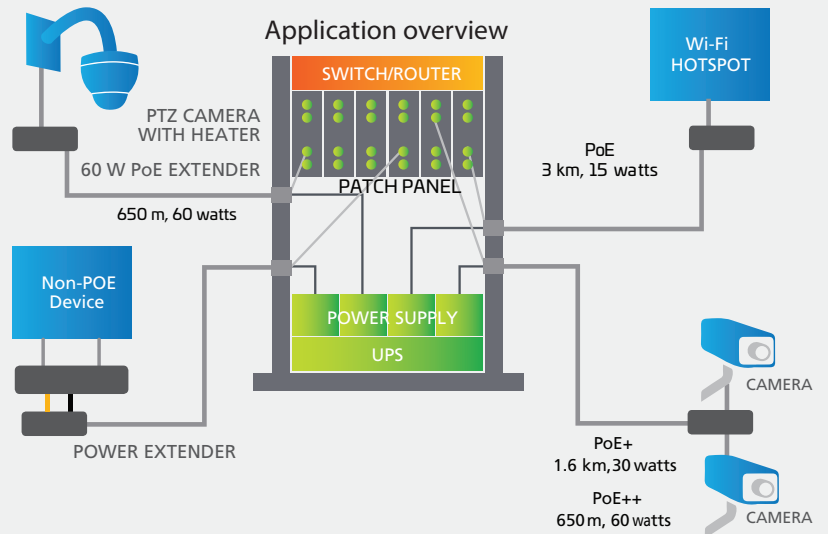

Powered Fiber Cable System

Providing power and communication to remote devices

COMMSCOPE®

Application overview

- Complete power and data system for IP devices
- Low-voltage power provided by centralized source/backup UPS
- Up to 32 devices simultaneously from one power supply
- Extends PoE distance up to 3 km
- Low-cost installation and setup
- Ideal for campus environments, airports, parking areas, stadiums, small cell base stations

Ordering information

MID part number	Description
16AWG PFC-S04016	PFC, singlemode, 4F, outdoor
16AWG PFC-S12016	PFC, singlemode, 12F, outdoor

Power supplies

- 57VDC power supply for use with Powered Fiber Cable System

MID part number	Description
PFP-PX-S1	Power Express Distribution shelf with alarm module
PFP-PX-8M	Power Express Distribution module supports max. 8 devices
PFP-PX-SE	Power Express Blank Slot Panel
PFP-SPS-S1	SPS Rectifier Power Distribution Shelf
PFP-SPS-1600M	1600W SPS Power Rectifier module
PFP-SPS-C1	SPS Rectifier Controller Display
PFP-SPS-SF	SPS Rectifier Blank Slot Panel

PoE extender

MID part number	Description
PFU-P-C-O-060-01	60W, Single-port PoE extender
PFU-P-C-O-060-02	60W, 2-port PoE extender

Software		
<p>IoT Suite (internet of things management server)</p>		<p>RUCKUS IoT Suite is a software controller that supports IoT devices from the RUCKUS IoT Ecosystem. Our IoT Ecosystem partners offer panic buttons, door locks, thermostats, etc. running BLE, Zigbee, Bluetooth, LoRA, etc. wireless interfaces.</p>
<p>Wi-Fi technology (service assurance)</p>		<p>RUCKUS Analytics is a cloud service for network intelligence and service assurance. Powered by machine learning and artificial intelligence, it gives IT comprehensive visibility into network operations and accelerates troubleshooting. RUCKUS Analytics delivers powerful incident analytics, automated health monitoring, robust reporting, informative dashboards and more.</p>
<p>SmartCell Insight (SCI) (reporting and dashboards)</p>		<p>RUCKUS SmartCell Insight is software that delivers detailed reporting and informative dashboards for your RUCKUS network. It aggregates data from applications, users, devices, access points, controllers and switches to provide visibility into network operations. The software helps you manage the network more effectively and improve user experience.</p>
<p>Cloudpath BYOD Enrollment System (secure network access)</p>		<p>RUCKUS Cloudpath Enrollment System is software/SaaS that delivers secure network access for any user, and any device, on any network. It streamlines network onboarding and authentication for BYOD, guest users and IT-owned devices—including IoT devices. The software increases security and reduces IT workload while providing a great end-user onboarding experience. Choose from cloud-based and virtualized on-premises deployment.</p>

CommScope pushes the boundaries of communications technology with game-changing ideas and ground-breaking discoveries that spark profound human achievement.

We collaborate with our customers and partners to design, create and build the world's most advanced networks. It is our passion and commitment to identify the next opportunity and realize a better tomorrow. Discover more at commscope.com
