FOSC® Splice Tray

- FOSC splice trays hinged for access to any splice without disturbing other trays
- The FOSC splice tray portfolio includes versions for storing single and/or ribbon (mass) fusion splices, ribbon splices with ribbon slack on the same tray, and patching capabilities.

FOSC splicing trays store fibers and splices in FOSC splice closures and any network element such as fiber panels that accepts FOSC trays. In all parts of the tray, the arrangement of fiber and splices conforms to minimum bend radius requirements.

The trays' hinged feature provides fiber protection as well as easy access. Storage baskets are available for slack storage of extra or uncut fiber lengths.

General Specifications

Application
- For use with FOSC-100 Fiber closures
- For use with FOSC-400A Fiber closures
- For use with FOSC-400B Fiber closures
- For use with FOSC-400D Fiber closures
- For use with FOSC-450 Fiber closures
- For use with FOSC-600 Fiber closures

Color
- Gray

Splicing Type
- Heat shrink
- Mass fusion, ribbon
